Location-Based Diary App

User Testing Sheet

Participant ID: 01
Device Model: vivo
Operating System: Android
Did the map display correctly?
☑ Yes
☐ No
Additional notes (optional):

Task 1 — Purpose-based search

Instructions for participant
Please open the Search function in the app.
Set a radius.
In the purpose input field, type the following:
buy milk
buy groceries
get coffee
eat lunch
go gym
print documents
withdraw cash
buy medicine
pick up parcel
take bus / train
The system should suggest a category such as supermarket.
Please select one suggested category and view the nearby places.

Tester observations
Was the search result shown?
☑ Yes
☐ No
Did the participant understand what to do?
☐ Immediately
☑ After explanation
☐ Difficult
Time to complete (approx):
10 seconds
Comments:

Task 2 — Another purpose

Instructions for participant

Please perform another search.

Type the following purpose:

get coffee

Select a suggested category and view nearby places.

Tester observations

Search successful?

☑ Yes

☐ No

Time to complete:

___5___ seconds

Comments:

Task 3 — Category search

Instructions for participant

Instead of typing a purpose, please select a place type directly.

Choose one of the categories such as:

Cafe / Coffee

Then view nearby locations and choose one.

You choose(categories):

Name of the place:

Tester observations

Was a list of locations shown?

☑ Yes

☐ No

Was the selection process easy?

☑ Easy

☐ Neutral

☐ Difficult

Comments:

也许可以多增加一点地方以供选择

Task 4 — Create a reminder

Instructions for participant

After selecting a location, please create a reminder entry.

Steps:

1.Select one location.

2.Return to the Add Entry screen.

3.Save the reminder.

Tester observations

Entry saved successfully?

☑ Yes

☐ No

Did the selected location appear correctly?

☑ Yes

☐ No

Comments:

Task 5 — Geofence notification

Instructions for participant

Now we will test the location reminder.

The tester will simulate or move to the location area.

Please observe whether a notification appears when entering the geofence.

Tester observations

Notification triggered?

☑ Yes

☐ No

Cooldown working (no repeated notifications)?

☑ Yes

☐ No

Comments:

实际测试中有时会产生一些显著的延迟，原因可能为定位漂移以及GPS定位的数率问题。

Usability Feedback

Please rate the following statements from 1 (very poor) to 5 (excellent).

Question	Score
The app was easy to understand	4
The search function was clear	4
Selecting locations was easy	4
The reminder concept is useful	5

Additional Feedback

What did you like about the app?

功能多样，UI设计简洁大方

What could be improved?

如果每个地方能够让用户能在地图上看到分别更他们选择想去的位置。
